Profile

I'm a passionate web developer with a strong foundation in HTML, CSS, and JavaScript. I create visually appealing and functional websites, staying updated with the latest front-end tech. Eager to collaborate and enhance user experiences through responsive designs, performance optimization, and interactive features.

Projects

Simon Game

August, 2023

- Designed and developed a Simon Game website utilizing jQuery, showcasing a user-friendly and interactive interface.
- Created an engaging gaming experience with a focus on simplicity and intuitive design.
- Implemented the classic Simon Game logic, providing players with an enjoyable and nostalgic challenge.
